DESCRIPTION
Over the course of one year, Nelson Henricks periodically shot footage from the front window of his third floor apartment. This became the basic material for Window, a video about knowing. How do we come to know a place or a person? Through repetitions and variations, our knowledge comes from more than one unique experience. It is the sum of many things. "The sum of all sight and sound. The sum of all motion". Window attempts to show how a whole can be more than merely the sum of its parts.
