DESCRIPTION
A documentary about two organic farmers who belong to a community-shared agriculture network. Three video artists follow them over the course of a season. The result is a human and intimate sense of their vision of the world and the way they manage food and environmental resources. Two farms, two regions, two realities, one vocation. For Robert, farming is not just a job, it’s a way of life that fits his environmental vision of the world. As for Frédéric, can he demonstrate that it is possible to survive in Quebec as a small-scale organic farmer?
