

# PLANÉTARIUM

**DIRECTOR**

Nelson Henricks

**DURATION**

20:33

**YEAR**

2001

**ORIGINAL LANGUAGE**

English

French (on-screen text)

**CATEGORY**

Video Art

**DESCRIPTION**

A whimsical science-fiction comedy soundtracked to a mix of pop music and experimental electronica, *Planetarium* explores our current fascinations with ufology, extraterrestrials and the future. A post-fin de siècle ode to the death of utopia, this video contrasts the vastness of outer space with the capacity to imagine; the cosmos that surrounds us an universe that exists inside our heads. File under experimental. Play at maximum volume.

**SOUND**

Stereo

**KEYWORDS**

Onirism, Critic, Diversion, Future, Imagination, Journey
