### **DIRECTOR**

Nelson Henricks

### **DURATION**

20:33

### **YEAR**

2001

### **ORIGINAL LANGUAGE**

English

French (on-screen text)

### **CATEGORY**

Video Art

## **DESCRIPTION**

A whimsical science-fiction comedy soundtracked to a mix of pop music and experimental electronica, *Planetarium* explores our current fascinations with ufology, extraterrestrials and the future. A post-fin de siècle ode to the death of utopia, this video contrasts the vastness of outer space with the capacity to imagine; the cosmos that surrounds us an universe that exists inside our heads. File under experimental. Play at maximum volume.

### SOUND

Stereo
