DESCRIPTION

Bêtes de foire reveals the deeper nature of two individuals, a woman and a man, by means of a journey toward the unconscious. Their chaotic path assumes the form of a light and a synthetic surrealist dream. Keeping us "on alert", a humour native to the grey areas of the mind unfolds. As either a false image of ourselves or a mirror of a reality to come, *Bêtes de foire* has the ability to adapt so to better embed itself in the mind.
