2004

ORIGINAL LANGUAGE
French

CATEGORY
Video Art

DESCRIPTION
This video recounts the gradual construction of a new relationship with someone who has just arrived in a rest-home. The aged body has lost its mobility and its softness, the skin has lost its sensuality and the person has lost his/her autonomy and ability to communicate. Rides in a car mark the different steps of this initiatory approach. Songs aired on the radio echo back to what has been experienced.
