**DESCRIPTION**
"This is my secret. It's very simple : we only see clearly with the heart. Essence is not visible to the eyes. It's the time you have spent on your rose that makes the rose so precious. Men have forgotten this truth, but you must not forget it. You become responsible forever for that which you have tamed. You are responsible for your rose." This video has been produced by 14 and 15 year olds, in a sandpit behind a scrap dealer's courtyard, in St-Eustache and it's really beautiful...!
