DESCRIPTION
"I fall to pieces each time I see you again".
This short 3.5 minute video is a portrait of a personal landscape. It combines 15 beauteous and hideous qualities of being an extension of the planet’s biomass. A disquieting auto examination of my intimate environment. Suspense, you bet! Since our body’s cells are completely rejuvenated or replaced in 7 years, then we have all been twice renewed in the last 15 years. Where was this video shot?
