**DESCRIPTION**

Jo Lechay initiates the spectator into the fabulous world of dance. The choreography carries us away in a whirlwind of energy, synchronised with the rhythm of the dancers' breaths and the sounds of their feet on the floor. The use of tight editing and the rapid succession of sequences bring out the vitality, intensity, humour, vivacity and sensuality of the dancers. The camera, in continuous and hectic movements, transports the spectator between rehearsal to the most intense and exciting moments of the show.
