LA MOTO : UN ENGIN À CONTRÔLER

DIRECTOR
Michel Pronovost

DURATION
30:49

YEAR
1986

ORIGINAL LANGUAGE
French

CATEGORY
Documentary

SERIE
Vivre motocycliste

DESCRIPTION
Nowhere in North America is motorcycling more popular than in Quebec. However, each year the motorcycle accident rate is consistently higher than that of automobiles. This sobering reality has prompted the production of *Vivre motocycliste*, a complete video documentary on safe driving practices. This educational resource encourages preventative attitudes and demonstrates several useful techniques for safer riding. *Vivre motocycliste* is for any current or future motorcycle enthusiast, especially those between the ages of 18-25.

Episode # 2 : *La moto : un engin à contrôler*. Demonstrates and explains the techniques involved in driving a motorcycle: braking, counterweight, steering into a skid, curves, braking on a curve, steering and hedging.
