LA NATURE CONTRE-ATTAQUE

DIRECTOR
Frédéric Lavoie

DURATION
125:00

YEAR
2019

ORIGINAL LANGUAGE
French

CATEGORY
Documentary
Experimental

DESCRIPTION
La nature contre-attaque is a video essay that depicts a hellish scenario in which animals revolt in reaction to the environmental damage caused by humankind.

Through a re-editing of film archives and a voice-over commentary, the film addresses the issue of the treatment of animals in cinema, looks at the origins of the current environmental crisis and attempts a chronological analysis of the evolution of the ‘nature’s revenge’ sub-genre over the course of its golden age.

SHOOTING FORMAT
HD
