YEAR
2020

ORIGINAL LANGUAGE
No dialogue

CATEGORY
Experimental

DESCRIPTION
Darkness never emerges but it is present. Some kind of teenage wasteland feel, unexpected storms and inviting landscapes are intermeshed together. In a bewitching atmosphere, proximity and distance are revealed through a thoughtful structure where images and sounds confuses both the imagination and the real. Sensuality and desire are seen as forbidden, somehow, like facing a glass wall. And only by looking back, there is an understanding of finding yourself on a moon-like space/place.

KEYWORDS
Imagination, reality, sensuality, desire
