2021

ORIGINAL LANGUAGE
English

CATEGORY
Documentary
Experimental

DESCRIPTION
If from Every Tongue It Drips explores questions of distance and proximity, identity and otherness, through scenes from the daily interactions between two queer women—a poet and a cameraperson. Connected through languages - Urdu, Tamil & English, personal and national histories, music and dance, and the gaze of the camera lens, they explore subjects both expansively cosmic and intimately close—from quantum superposition to the links between British colonialism and Indian nationalism.
