Dutch

English

**CATEGORY**

Essai

Experimental

**DESCRIPTION**

*Verzamelaar* is an essay film about Jeff Sermon's ongoing research into the ghosts left behind in the landscapes of his past. His own ghosts and those of his family and his partner. The voices of these ghosts travel through the air, whispering stories. If we listen closely, we can hear them, if we look closely we can see them in the flower that comes back each spring, in the branch of the tree that keeps on growing.
