**DIRECTOR** 

Nelson Henricks

**DURATION** 

0:20

**YEAR** 

2001

**ORIGINAL LANGUAGE** 

English

French (on-screen text)

**CATEGORY** 

Video Art

#### **DESCRIPTION**

A whimsical science-fiction comedy soundtracked to a mix of pop music and experimental electronica, *Planetarium* explores our current fascinations with ufology, extraterrestrials and the future. A post-fin de siècle ode to the death of utopia, this video contrasts the vastness of outer space with the capacity to imagine; the cosmos that surrounds us an universe that exists inside our heads. File under experimental. Play at maximum volume.

### SOUND

Stereo

### **KEYWORDS**

Onirism, Critic, Diversion, Future, Imagination, Journey
