French

CATEGORY

Video Art

DESCRIPTION

This video concerns itself with change and growth, visually and audively confronting pleasure and pain, motion and stillness. We listen to the following quotation by Jean Dubuffet: "Can we know about being human? We are inside! To really - see- you have to be non-human. But the verb -to see- has no meaning, it's a lure, an illusion, because we alone create what we think we see".
