FURTHER INFORMATION

"In this picture, I incorporated the idea of a movie as music E.P. I have always loved E.P. releases by underground musicians as there is a freedom with this short format which I have a strong affinity with. The *AM/FM Movie-EP* is essentially a broken musical. Within the film there are three very short pieces (two have titles, one does not) that continue to explore my connection with visual music/sound and as a whole, and all together form an opposing synthesis." - Eric Gaucher
