Documentary

**DESCRIPTION**

This video takes a look at the life of a couple from Québec who decide to live in Chili and participate in the workers' battle under Allende's government. It tackles a number of concerns : the possession of a territory by the population of a suburb in Santiago, the control of manufacturing by the workers, and the political situation of the country before and after the "coup d'état". Interviews, images of the city and pictures punctuate this pertinent document.
